

# TODO\*

## Definition and Implementation of a Common Identity for Secure Transport

Christoph Bühler

Spring and Autumn Semester 2022

University of Applied Science of Eastern Switzerland (OST)

Abstract

---

\*I would like to express my appreciation to Mirko Stocker for guiding and reviewing this work. Furthermore, special thanks to Florian Forster, who provided the initial inspiration and technical expertise of the topic.

## **Declaration of Authorship**

I, Christoph Bühler, declare that this MASTER THESIS titled “TODO” and the work presented in it are my own.

I confirm that:

- Where I have consulted the published work of others, this is always clearly attributed.
- Where I have quoted from the work of others, the source is always given. Except for such quotations, this MASTER THESIS is entirely my own work.
- I have acknowledged all main sources of help.
- Where the MASTER THESIS is based on work done by myself jointly with others, I have made clear exactly what was done by others and what I have contributed myself.
